WHAT'S INSIDE SUPER POLYMER?

A strong molecular chain that provides

superior color retention +

weather resistance

ProVia's Super Polymer formulation is comprised of our Tri-Pigment Reflective Technology, Weather Barrier Shield, SPX-2000 UV Protection and Color Keeper Anti-Fade Protection. Inorganic materials, anti-weathering ingredients, butyl and acrylic modifiers are melded together to create a strong molecular chain for superior color retention and weather resistance.

SUPER POLYMER MEANS PEACE OF MIND

knowing your home is clad in the industry's best vinyl siding

Tri-Pigment Reflective Technology

- A precise formulation of heat resistant inorganic pigments ensuring exacting deep colors.
- Reflects heat away from exterior walls and deflects damaging infrared solar rays to reduce solar heat build-up and unsightly weathering.

Weather Barrier Shield

- A concentration of precisely formulated anti-weathering materials at the product surface.
- Helps ensure long-lasting color fidelity and maintenance freedom for your home's exterior.

SPX-2000 UV Protection

- Helps block the destructive effects of the sun's UV rays.

Color Keeper Anti-Fade Protection

- Meticulously engineered with the finest mix of ingredients that build a stronger molecular chain for superior color retention.

QUALITY SECOND-TO-NONE

ProVia's vinyl siding products are meticulously engineered to meet or exceed ASTM standards set forth by the Vinyl Siding Institute (VSI). As a result, contractors, installers and homeowners benefit from product durability, longevity and performance for a lifetime.

"To serve, by caring for details in ways others won't." It's not just our mission, but a way of letting our light shine every day at ProVia®. We continually strive to put these words into action by providing unmatched quality and service. The heart-shaped weep hole symbolizes each employee's commitment to devoting the utmost care, pride and quality into each building product we manufacture...it's The Professional Way.
